

STYLE PLUS

"ELEGANCE AND STYLE"

STYLE PLUS deck boards stand out with their smooth surface in combination with unevenly distributed brindle finish. Thanks to sensitively selected coloring, the decking is perfectly suitable for every house or flat regardless of the type of architecture. The smooth, polished relief-free surface will never lose its originality, thus pre-destining the boards for universal use.

A TIP FOR YOU...

Blooming flowers will beautify your decking. Make flower pots out of WoodPlastic® profiles. You'll appreciate their stability thanks to the greater weight, nearly maintenance-free material and an appearance that is in perfect harmony with your decking.
